

Separation / Retirement Relocation - Moving Your Pets

Before You Move

- Obtain a copy of health records from your current veterinarian. This information needs to be passed on to the veterinarian at the new location
- Obtain a Health Certificate less than 10 days old. Certificates must be issued by a licensed veterinarian and be accompanied by an inoculations record.
- Obtain a permit allowing entry into the new destination. Your current vet can help you apply for one.
- Have identification secured to your pet's collar. ID tags should include pet's name, your name and destination address. Most states require dogs and cats to have a rabies tag on their collars.
- Check with your new destination City Clerk office for local pet ordinances. "Leash Laws" are common.
- Check the base policy on microchip.

Pets are not allowed in any on-base temporary lodging facility. You may not leash or tether your animal outdoors at any TLF on-base. If you are traveling with a pet, make plans well in advance of arrival. Arrange temporary quarters at a commercial contract motel that accepts pets.
